

## HUSKY BRUTE POWER JACKS

Revolutionary power jacks with features not found on other jacks in their class

### HUSKY BRUTE ORIGINAL SERIES POWER JACKS

Here's what started it all: power jacks that combined the best features of a variety of other jacks, then added more. The Brute is a powerful jack that is easy to operate and quickly raises and lowers the trailer's A-frame. Fits most A-frame couplers.

Brute was the first jack in its class to offer a **ball screw** for easy rolling friction, compared to the sliding friction of standard power jacks. Rolling friction means the motor works less, draws less amperage, creates less heat, reduces noise and increases motor and jack life. The ball screw shown here is standard in all Brutes except the HSB5000R which uses a hi-capacity ball nut.

Brute Jacks with **remote control**, HB4500R and HSB5000R, let you operate the jack from inside while leveling your refrigerator! Remote makes leveling more convenient. Also assists in hitching/unhitching.

#### BRUTE JACK FEATURES (see next page for more)

- Full 18" stroke.
- Economical to use with its low 25A draw at rated load.
- 3 LED work lights (high output LED on the Super Brutes) illuminate the coupler as well as the hookup brackets.
- Connector storage bracket not found on any other power jack.
- Durable hammer gray finish.
- Quiet design; low noise level during operation.
- 2-1/4" outer tube dia. fits all 2-1/4" A-frame couplers.
- 5.5" dia. foot pad.
- Smart Stop™ uses a planetary gear timing system which shuts down the power to the motor before the nut reaches the hard stop point, eliminating the hard mechanical stop and stress on the jack, and reducing current draw.

Husky Brute Power Jack	Part #
Model HB4500 Brute Jack, 4,500 lb. Capacity	<b>87247</b>
Model HB3000 Brute Jack, 3,000 lb. Capacity	<b>87248</b>

Weather-protected soft trigger switches on Super Brutes

**Super Brute starts at 4000 lb. lift capacity...and gets better!**

### HUSKY SUPER BRUTE HSB4000 POWER JACK

New design, capacity and features keep Brute the leader in the category. All the great features of the current Brute jacks PLUS:

- High output LED directional lighting for easy hookups
- Exclusive Power Alert warning system when remote is activated
- Protective storage cover, plug brackets included.

Hi-capacity ball nut in HSB5000R gives 33% increase in rated capacity

**HIGHEST CAPACITY!**

### HUSKY SUPER BRUTE HSB5000R POWER JACK WITH REMOTE

All the great features of the current Brute jacks PLUS:

- Highest capacity in its field
- High output LED directional lighting for easy hookups
- Sleep Circuit eliminates remote power draw during storage (5000R)
- Exclusive Power Alert warning system when remote is activated
- Protective storage cover, plug brackets included

## HUSKY BRUTE SUPER FOOT™ RETRACTABLE JACK EXTENSION

Extend the reach of your trailer jack with the Brute Super Foot. Its large foot ensures secure and stable use, including on out-of-level surfaces up to 10 degrees. Easy to operate. Even works in the retracted position. Super Foot's design allows for a wheel to be added (not included). Quick and easy installation: just 2 bolts and a spring clip. Includes all hardware. A reducing bushing is included so it will can work with most standard manual and electric jack posts.

- Quick cam actuating release.
- Durable powder coat and bright plating.
- Capacity: 6500 lbs.
- Fits 2" and 2.25" jacks.
- No-drill installation.
- Extended reach: 7 inches.
- 2-year Husky warranty.

**31610** Brute Super Foot #10210021 4

*Adapter Bushing Kit: Two black nylon bushings, each a slightly different size, to help with the occasional difficult fit when installing a Super Foot to a jack.*

**82030** **NEW!** Adapter Bushing Kit #82030 1
