Fifth Wheel Stabilizer

Reduces side-to-side and fore-to-aft movement of your coach. Designed as stabilizers for 5th wheel trailers with a king pin height of 38¹/₂" to 50". Easy to use with a simple, but effective, chain system that links and locks tripod legs to the proper height. These stabilizers work in conjunction with your coach's supporting jacks and are not intended to support the full weight of your coach. Their maximum vertical load rating is 5,000 lbs. Made of rust-resistant steel. Box/1.
